The National Geographic Atlas of the World is a very popular reference atlas for the wide variety of information it contains. Other popular reference atlases include Goode's World Atlas, developed by John Paul Goode and published by Rand McNally, and the National Geographic Concise Atlas of the World.

Sadly, no Goode's Atlas in the list. It was - in my childhood - the most significant atlas I owned: it uniquely had little 'cartoon colors' maps of virtually every import/export resource, from ores to cacao, coffee to pineapples. A delight to consider where things come from, and in a way that also made clear the quantity involved. The current is the 22nd edition.

For those in the market for atlases that make excellent reference books, we recommend the The Times Comprehensive Atlas of the World, Oxford Atlas of the World, National Geographic Atlas 10th Edition, Goode's World Atlas 23rd Edition, and DK Complete Atlas 3rd Edition. All of these contain a wealth of information, in addition to maps.
