The Miata's engine is small, no matter what generation you have. The most a Miata ever came with from the factory (in the US) is 160 HP. You can have a lot of fun with that much power thanks to the Miata's weight, but eventually we all end up wanting more. While it's possible to add a VVT (variable valve timing) to the engines missing it, this will only really give you a mid-range bump ...
