Am I a Woman?

A Skeptic's Guide to Gender *Beacon Press*

In this smart, intimate, and conversational book, Cynthia Eller delves into the twin thickets of gender theory and everyday experience to ask how we decide who is a woman-and why we find the answer important. Is a woman defined by her anatomy? Does she perceive the world differently than men? Is it her behavior that somehow marks her as inescapably female? Or is it a matter of how others evaluate her? Eller's answers demonstrate that the question is far more complicated, and its effects more pernicious, than it might at first appear.

The Premarital Counseling Handbook *Moody Publishers*

In any endeavor, dreams and goals not backed by concrete plans and preparations can result in failure. And marriage is no exception, claims H. Norman Wright. In fact, without solid planning and forethought by engaged couples, we will surely see a continuation of the startling divorce rate among Christians and non-Christians alike. On the other hand, thorough premarital counseling and preparation can result in lifelong marriages that are fulfilling and God honoring. That's where the church comes in. More and more churches are realizing that their responsibility lies not only in pronouncing men and women 'husband and wife,' but also in making sure the proper foundation is laid so that marriages have a better chance of standing strong under pressure. Since its introduction in 1977 as *Premarital Counseling*, this book has been used by literally thousands of churches throughout the country as both a guide and reference tool. Now Dr. Wright has added new material to cover some perplexing issues that have come into prominence only recently. Among those special concerns are: Interracial marriages Second marriages Marriages of persons from dysfunctional families Writing for both pastors and other premarital counselors, H. Norman Wright sets you at ease about the counseling process, even if you've had only limited counseling experience. As the author of the popular *Before You Say I Do* and numerous other books on marriage, H. Norman Wright documents in *The Premarital Counseling Handbook* methods that have proved

successful. These will help insure that the marriages performed in your church will resist the pressures that are destroying today's married couples.

Situational Interaction: A Peer Counseling Approach to AWOL (unauthorized Absences from Duty) Reduction

An AWOL reduction program, which utilized peer counseling, was conducted with two randomly selected companies from a mechanized infantry battalion at Fort Carson, Colorado. Two randomly selected companies from the same brigade served as static control units. Employing the Taylor-Johnson Temperament Analysis (T-JTA), AWOL-prone soldiers were identified and were counseled initially by the unit chaplain and subsequently by platoon leaders. Platoon leaders identified situational aspects of AWOL-prone soldiers and interacted as mediators between environmental situations (e.g., money problems) and personal factors identified by the T-JTA. As a function of the intervention, the treated group showed a significant decline in AWOL rates while the control group did not. Results were discussed in terms of the efficiency of employing the Taylor-Johnson Temperament Analysis in conjunction with peer counseling to reduce AWOL

rates.

Life Enhancement ABC's

The basic premise of this book begins with the fact that everyone has a need for support, and, in some cases, counseling, sometime during their lifetime. Dr. Barrett writes from life experience as well as from practical hands on counseling, and as a mentor to countless numbers of people who have struggled with relationships and addictions. This book presents a new method of counseling called, "Competent Nouthetic Counseling." This method is based on letting the person make their own decisions, with the guidance of a counselor or therapist. For years counselors and therapists controlled the person, and the person was dependent on the counselor or therapist. This is a new approach to counseling a person. People who go through these sessions should be expected to go through life with a successful ending, and find solutions to their problems, and experience healing at the same time. That is what this study is about; creating a non-dependence on the counselor. If you believe in these methods you will learn how to deal with your own problems as well as the problems of others you know, This will enhance your life as well as your friends and family.
