Evaluation Of Permanent Impairment 6th
 Widely accepted as the most reliable medical reference on impairment evaluation

since its inception in 1971, the new sixth edition of the "Guides" considers the latest evidence and patient function to achieve physician interrater reliability through an updated consensus approach. A series of uniform grids in each chapter provides a new standard for impairment evaluation.

 A second edition of

these guides was published as separate chapters in a single volume in 1971 entitled "Guides to the Evaluation of Permanent Impairment." These AMA Guides, now in a 6th edition (2008, with updates), are an "attempt to estimate the severity of human impairments based on accepted medical standards." The concept here is that a loss of function could be translated to a percentage loss of the whole person.
