Laudan's answer is that this move is rational (and not a shoddy ad hoc) if it expands the problem-solving ability of the theory. My suspicion is that by reframing the question in terms of problem solving, (and rendering veracity of the theory irrelevant to progress and rationality), Laudan is amounting to the position that whatever solved more problems is a better theory.

Week 7 — Larry Laudan's Progress and its Problems ...

The central tenet of the early-Laudan is the pragmatist idea that scientists prefer theories that solve more problems - empirical or conceptual. Similar to Lakatos, he accepts that scientific theories live and die in an ocean of anomalies and that there is no such thing as a decisive refutation of a theory by a counterexample.

Larry Laudan - Encyclopedia of Scientonomy

In Beyond Positivism and Relativism, Laudan wrote that "the aim of science is to secure theories with a high problem-solving effectiveness" and that scientific progress is possible when empirical data is diminished. "Indeed, on this model, it is possible that a change from an empirically well-supported theory to a less well-supported one could be progressive, provided that the latter resolved significant conceptual difficulties confronting the former."

Larry Laudan - Wikipedia

1.5 The Pragmatic, Problem-Solving Approach. Laudan opened Progress and Its Problems (1977) with the claim that providing an adequate model of rationality is the primary business of the philosopher of science but that no extant methodologies fit actual science. In this book his idea of good fit was fit with a selection of intuitively strong historical instances that any adequate theory must explain.

Historicist Theories of Scientific Rationality (Stanford ...

A more systematic account of these ideas is given by Laudan (1977): the problem-solving effectiveness of a theory is defined by the number and importance of solved empirical problems minus the number and importance of the anomalies and conceptual problems that the theory generates. Here the concept of anomaly refers to a problem that a theory fails to solve, but is solved by some of its rivals.
