Surviving Her Dominant

Jelvia: Not Human #2Surviving her Dominant Two men. Both dominant, both dangerous, both unsuitable. Both want her. It took Courtney five years to leave Greg Martin, and now he's back, full of apologies and puppy-dog eyes. It took her a few seconds to see the attraction between her and the Jelvia, Aldarn. A few seconds to see the need for him to possess her. Two men. One human, one Jelvia. And both want to protect her from the other. Surviving her Dominant is a sci-fi romance with scenes not suitable for those under 18. This book is NOT erotica.A little backstory of the JELVIA: NOT HUMAN series: Imagine a world where humans aren't the supreme being. But it's still the 21st century. We still go out to work, enjoy vacations and watch Netflix on the TV. But in this world, living alongside us is a species that are disease resistant, stronger, larger, venomous-in short, superhuman. But they aren't human. They are Jelvias and they are known for their necessity to kill. Ordinary Jelvian citizens are said to live a peaceful life on islands dotted around the Celtic Sea and the Atlantic Ocean. The need to kill doesn't extend to them.Wardens are trained to use their venom effectively and follow the orders of the Swords who dictate which humans die and which live. It keeps good humans alive, and so far, Jelvias and humans can live in peace together-albeit a hopeless one for humankind. In Jelvian culture, it is forbidden to disobey, or even discuss, the committee, a faceless controller of all Jelvias.Where once the (lack of) timeline of the Jelvia was just a conspiracy theory limited to fringe audiences, it is becoming apparent that more of us are now asking questions instead of accepting, but while some of us believe that something isn't right with the world and reflect that odd things are happening, others choose to ignore and prefer ignorance.All books are connected by common characters and theme. This is a contemporary sci-fi with romance and intrigue. No cliff-hanger. Contains mature themes including explicit language, violence, and descriptive sex scenes. 18+Jelvia: Not Human is a series based on Eden and Hunted, books by Louise Wise.

Challenges and Opportunities for Women in Higher Education Leadership IGI Global

Gender studies in the professional realm has long been a heavily researched field, with many feminist texts studying topics including the wage gap and family life. However, female administration in higher education remains largely understudied, particularly on the influence of personal, professional, and societal factors on women. There is a need for studies that seek to understand how gender intersects with the multiple dimensions of women leaders’ personhoods, such as family status, marital status, age, race, ethnicity, and sexual orientation, to inform women’s career path experiences and leadership aspirations. Challenges and Opportunities for Women in Higher Education Leadership is a pivotal reference source that provides vital research on the specific challenges, issues, strategies, and solutions that are associated with diverse leadership in higher education. While highlighting topics such as educational administration, leader mentorship, and professional promotion, this publication explores evidence-based professional practice for women in higher education who are currently in or are seeking positions of leadership, as well as the methods of nurturing women in administrative positions. This book is ideally designed for educators, researchers, academicians, scholars, policymakers, educational administrators, graduate-level students, and pre-service teachers seeking current research on the state of educational leadership in regard to gender.
