Visual Communication For Landscape Architecture

Visual Communication for Landscape Architecture demonstrates not only how and where a range of visual communication skills are needed to inform a design process, but also why they are essential in order to make presentations both informative and memorable. It illustrates how representational techniques can be

sensitively applied in different contexts appropriate to a diverse range of design challenges, and encourages experimentation with contemporary techniques, both 2D and 3D.

Visual Communication For Landscape Architecture - Idea Books

This book is a visual delight, full of examples of how to illustrate and communicate good landscape architecture and urban design, and will be of benefit to graphic designers as well of course to -- Tim Hagyard * Urban Design Quarterly * This handsome book does a superb job of explaining why we use visual communication - a task which no other book on representation for landscape architecture has yet accomplished.
