Insight Selling Is The New Solution Selling

Solution selling is the process of selling the customer a solution to their problems as opposed to a product or service. The term is associated with the sales of products and services that can be used as the building blocks of a custom implementation. Solution selling is common in areas such as construction services, software and outsourcing sales.

The 7 Stages of the Solution Selling Process - Simpllicable

The solution selling process is exactly

what it sounds like: selling a customer on a solution (your business or product) that helps them overcome a problem. A solution selling process differs from a more traditional sales process because, instead of just pushing a product, the seller focuses on a specific issue or problem the customer faces and suggests corresponding services or products to solve that issue.

Microsoft Solution Sales Professional Salaries | Glassdoor

Solution selling is a type and style of sales and selling methodology. Solution selling has a salesperson or sales team use a sales process that is a problem-led (rather than product-led) approach to determine if and how a change in a product could bring specific improvements that are desired by the customer. The term "solution" implies that the proposed new product produces improved outcomes and successfully resolves the customer problem.

The key components bundled with a solution sale generally consist of hardware, software, networking and storage technologies -- along with associated services. Those services can include upfront business and technical advisory services, technology implementation services, and post-implementation managed services and hosting. The role of advisory services in helping customers identify the business problem has created strong parallels between solution selling and consultative sales.
