legality of space militarization

Any deployment of space weapons would face financial, technological, political and diplomatic hurdles, although no treaty or law bans Washington from putting weapons in space, barring weapons of mass destruction, claims the Times. Yet, this news article appears to ignore the Outer Space Treaty mentioned above, or the Prevention of Outer Space Arms Race resolution, adopted by a recorded vote of ...

Militarization and Weaponization of Outer Space — Global

...

The Outer Space Treaty does not ban military activities within space, military space forces, or the weaponization of space, with the exception of the placement of weapons of mass destruction in space. It is mostly a non-armament treaty and offers limited and ambiguous regulations to newer space activities such as lunar and asteroid mining.

Outer Space Treaty - Wikipedia

The militarisation of space involves the placement and development of weaponry and military technology in outer space. The early exploration of space in the mid-20th century had, in part, a military motivation, as the United States and the Soviet Union used it as an opportunity to demonstrate ballistic-missile technology and other technologies having the potential for military application.
