Politics International Relations Notes
As a note, it is very difficult to define liberalism, constructivism and post-structuralism in one set way. This isn’t a specific theory, it is more of a wider

approach; the theory of how meaning is constructed. Constructivism posits that International Relations is a part of sweeping discursive struggles.

Politics International Relations Notes
International Politics. Governments not only interact with the people they rule but also with other governments—to trade, to share ideas, to work together to solve global problems, and to resolve disputes. Political scientists have been analyzing international relations— relations between states—for centuries, but never more so than during the twentieth century, as scholars tried to explain the reasons for and explore the aftermath of World Wars I and II and the Cold War that followed.

International Politics: Overview | SparkNotes
A theory of international relations is a set of ideas that explains how the international system works. Unlike an ideology, a theory of international relations is (at least in principle) backed up with concrete evidence. The two major theories of international relations are realism and liberalism.
