NMRA. The NMRA (National Model Railroad Association) standardized the first model railway scales in the 1940s. NMRA standards are used widely in North America and by certain special interest groups all over the world. To some extent NMRA and NEM standards are compatible, but in many areas, the two standards specify certain model railway details in somewhat incompatible ways for the same scale.

List of rail transport modelling scale standards - Wikipedia

7. Ignoring gaps in your work history. Gaps in employment history are fairly common and rarely a problem as long as they're explained. You don't need to worry about gaps of a couple of weeks but if you've been out of work for months (or even years) you need to clearly and concisely explain why.
