Earth-sheltered Pinnacle House is an award-winning, sustainably-designed home in Lyme, New Hampshire. The home was designed and built by architect Don Metz in 1971, a pioneer in green home design and construction. The north-side of the house is built into the hillside, creating a green roof through the use of earth-sheltered building techniques.

Earth Sheltered Homes • Insteading

Sedimentary rocks are formed over thousands of years, as layers of soil are carried to a settlement bed by water and compacted by each subsequent layer of sediment. Building a rammed earth home is like creating sedimentary rock but very, very quickly. The number of rammed earth construction crews is growing, but a house can also be completed by an owner without professional help.
