The Economic Point Of View

Along with the topographical and dynamic points of view, the economic point of view is one of the three main axes of metapsychology. It deals with psychic events in terms of the intensity of the forces that run through them and animate them. This concept was present in Freud's early thinking and appears in his first metapsychological formulations. It then assumed increasing importance during the evolution of his theoretical thinking and his conception of psychopathology.

Economic Point of View, The by Israel M. Kirzner

The Economic Point of View: An Essay in the History of Economic Thought. The present essay is an attempt to explore with some thoroughness an extremely narrow area within the field of the history of economic thought. Although this area is narrow, it merits a scrutiny quite out of proportion to its extension, relating as it does to fundamental ideas around which the entire corpus of economic thought has revolved for some two centuries.
