Pension Reform In India The

Pension Reforms in India. In India, absence of a country-wide social security system, ageing population and social change on account of breakdown of traditional family support system are important considerations for introducing pension reform in the unorganized sector. Whereas in the public sector, fiscal stress of the defined benefit pension system, applicable to the employees of the Government sector, was the major driving force for pension reforms.

Pension reforms and a pension system with greater reach will not only ensure citizens' welfare in their golden years but will also help the central and state governments cut their future liabilities. With these broad objectives in mind, the government of India set up an expert committee in 1998 to devise a new pension system for India.
