Power steering leak | Ford Expedition Forum

If your Ford Expedition 's steering wheel is hard to turn, it's almost always going to be caused by an issue with the power steering system. The power steering system is responsible for taking energy from the engine, converting it to hydraulic pressure, and using that pressure to decrease the amount of force that you need to apply to the steering wheel.

Ford Expedition : Steering Wheel Difficult to Turn ...

The power steering in your Ford truck uses hydraulic fluid to assist in turning the wheels left and right. The power steering pump is the component that pushes this fluid through the power steering system. If the pump fails, you will not have any power assist from the power steering system. However, other components, like the accessory belt, the power steering rack, and the fluid in the system all need to be checked as well in order to diagnose the potential problems that can occur with your ...
