Sociolinguistics and Language Education (New Perspectives ...

Sociolinguistics is concerned with the relationship between language use and social variables. One of the major debates in the field of sociolinguistics is whether to take social or linguistic factors as primary in investigating this relationship. As evidence of this debate, Wardhaugh (1992) and others make a distinction between sociolinguistics and the sociology of language.

Sociolinguistics and Language Education

The basic premise of sociolinguistics is that language is variable and ever-changing. As a result, language is not uniform or constant. Rather, it is varied and inconsistent for both the individual user and within and among groups of speakers who use the same language. People adjust the way they talk to their social situation.
