Journey of the Midnight Sun *Orca Book Publishers*

This is the true story of the journey of the Midnight Sun Mosque. In 2010 a Winnipeg-based charity raised funds to build and ship a mosque to Inuvik, one of the most northern towns in Canada’s Arctic. A small but growing Muslim community there had been using a cramped trailer for their services, but there just wasn't enough space. The mosque travelled over 4,000 kilometers on a journey fraught with poor weather, incomplete bridges, narrow roads, low traffic wires and a deadline to get on the last barge heading up the Mackenzie River before the first winter freeze. But it made it just in time and is now one of the most northern mosques in the world. This beautiful picture book reminds us that the collective dream of fostering a multicultural and tolerant Canada exists and that people of all backgrounds will come together to build bridges and overcome obstacles for the greater good of their neighbors.

Manabu Yukawa, the physicist known as "Detective Galileo," has traveled to Hariguara, a once-popular summer resort town that has fallen on hard times. One faction is against the proposed operation, concerned about the environmental impact on the area, known for its pristine waters. The other faction, seeing no future in the town as it is, believes its only hope lies in the development project. The night after the tense panel discussion, one of the resort's guests is found dead on the seashore at the base of the local cliffs. The local police at first believe it was a simple accident—that he wandered over the edge while walking on unfamiliar territory in the middle of the night. But when they discover that the victim was a former policeman and that the cause of death was carbon monoxide poisoning, they begin to suspect he was murdered, and his body tossed off the cliff to misdirect the police. As the police try to uncover where Tsukahara was killed and why, Yukawa finds himself enmeshed in yet another confounding case of murder. In a series of twists as complex and surprising as any in Higashino's brilliant, critically acclaimed work, Galileo uncovers the hidden relationship behind the tragic events that led to this murder.

The Tattoo Murder Case was originally published in 1948; this is the first English translation. “Clever, kinky, highly entertaining.” —The Washington Post Book World “A delightful, different book, not only because of its unusual setting and premise, but because Takagi is a powerful plotter and constructor of fascinating, complex characters.” —The A.V. Club “Has all the mind-boggling braininess and dazzling artifice of mystery’s Golden Age, spiced with voyeuristic close-ups of a dying art in which postwar Japan remains supreme: full-body tattoos . . . A Quiet Place *Bitter Lemon Press*

"A master crime writer . . . Seicho Matsumoto's thrillers dissect Japanese society."—The New York Times Book Review "A stellar psychological thriller with a surprising and immensely satisfying resolution that flows naturally from the book’s complex characterizations.Readers will agree that Matsumoto (1909–1992) deserves his reputation as Japan’s Georges Simenon.-Publishers Weekly. While on a business trip to Kobe, Tsuneo Asai receives the news that his wife Eiko has died of a heart attack. Eiko had a heart condition so the news of her death wasn’t totally unexpected. But the circumstances of her demise left Tsuneo, a softly-spoken government bureaucrat, perplexed. When Tsuneo goes to apologize to the boutique owner for the trouble caused by his wife’s death he discovers the villa Tachibana near by, a house known to be a meeting place for secret lovers. As he digs deeper into his wife's recent past, he must eventually conclude that she led a double life... Seicho Matsumoto was Japan's most successful thriller writer. His first detective novel, Points and Lines, sold over a million copies in Japan. Vessel of Sand, published in English as Inspector Imanishi Investigates in 1989, sold over four million copies and became a movie box-office hit.

The Name of this Book Is Secret *Little, Brown Books for Young Readers*

Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

The Sacred Fire of the Phoenix

A Journey into the World Within *22 Lions - www.22Lions.com*

There's a sacred and hidden path inside each one of us, a path of mysteries and amazing manifestations, where nothing is impossible, not even our wildest spiritual creations. This is the realm of impossibilities, where imagination is carried away by a spiritual insight, which is here referred as the phoenix. The allegory inside this book takes us to a subconscious realm, that can lead us to the most uplifting and unknown side of ourselves, but also to other realities as well, namely, the ones that are parallel to ours, and also other dimensions and galaxies. It is with this allegory of the phoenix that we understand the role of the dragons and serpents of our planet, and how they interfere in the Tao of our existence. As a dance of forces, vibrations of different natures, these symbols and concepts take us to the deepest truth within, of who we are and how far can we go. This is a book about the adventures of our soul, the journey within that so many Shamans live to explore. It's also about a path that all spiritualists and gurus have experienced, a path that some have called nirvana, enlightenment or awaking, but few have ever had the ability to fully describe in a way that can be perceived by the common mortal. The Native Americans have often told us about the spirit of the eagle that keeps guard over the spiritual world. This eagle, or big bird, is representative of another living force, which is the phoenix, the bird of fire. This is why many mystics of ancient times believed that only fire could take souls to another world. The fire purifies the body, but the most potent fire comes from within, as an energy that we burn with our conscious awareness. This is the fire that Buddhists, Taoists and Hindus persist in awakening from within, commonly using disciplines created specifically for this purpose, such as yoga, chikung and meditation. This fire represents the power of our own spirituality, which most people are unaware to possess. As mortals and genetically manipulated slaves of a few alien species, we've lost the physical capability to ignite it. But the phoenix can help us reach it, through the spiritual nature that is within each one of us. The one who can ride the phoenix, can travel very far, to amazing lands. And these are the ones that often come back, when they choose to, as our prophets and religious leaders. This book describes their journey to Valhalla, Heaven, Paradise, or more simply, the Laboratory of God.

A revelatory portrait of eight Indigenous communities from across North America, shown through never-before-published archival photographs--a gorgeous extension of Paul Seesequasis's popular social media project. In 2015, writer and journalist Paul Seesequasis found himself grappling with the devastating findings of Canada's Truth and Reconciliation Commission report on the residential school system. He sought understanding and inspiration in the stories of his mother, herself a residential school survivor. Gradually, Paul realized that another, mostly untold history existed alongside the official one: that of how Indigenous peoples and communities had held together during even the most difficult times. He embarked on a social media project to collect archival photos capturing everyday life in First Nations, Metis and Inuit communities from the 1920s through the 1970s. As he scoured archives and libraries, Paul uncovered a trove of candid images and began to post these on social media, where they sparked an extraordinary reaction. Friends and relatives of the individuals in the photographs commented online, and through this dialogue, rich histories came to light for the first time. Blanket Toss Under Midnight Sun collects some of the most arresting images and stories from Paul's project. While many of the photographs live in public archives, most have never been shown to the people in the communities they represent. As such, Blanket Toss is not only an invaluable historical record, it is a meaningful act of reclamation, showing the ongoing resilience of Indigenous communities, past, present--and future.

Journey to the End of the Night *Calder Publications Limited*

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France's--and literature's--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of Journey to the End of the Night move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that's lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.
