Evidence-based practice involves the therapist making decisions about which

therapy to deliver based on three guiding factors: (1) the best-available research evidence bearing on which treatments work best and why, (2) clinical judgement and experience in assessment and formulation of a client's presenting problems, and (3) client preferences and values.

Evidence-Based Practice - an overview | ScienceDirect Topics

Evidence-based practice is the idea that occupational practices ought to be based on scientific evidence. That at first sight may seem to be obviously desirable, but the proposal has been controversial. Evidence-based practices have been gaining ground since the formal introduction of evidence-based medicine in 1992 and have spread to the allied health professions, education, management, law, public policy, and other fields. In light of studies showing problems in scientific research, there is a

Evidence-based practice - Wikipedia

Evidence-based practice (EBP) is established as a fundamental element and key indicator of high-quality patient care. Both achieving competency and delivering instruction in EBP are complex processes requiring a multimodal approach. Currently there exists only a modest utilisation of existing resources available to further develop EBP education.

Evidence-based practice education for healthcare ...

Evidence-based practice (EBP) Lindsay (2007) explains EBP in simple terms: it involves using the best evidence you have about the most effective care of individuals, using it with the person's best interests in mind, to the best of your ability and in such a way that it is

clear to others that you are doing it.”

What is evidence-based practice? - Community Care

Evidence and experience shows that using evidence-based guidance and improving practice is easier and more likely to happen when the environment for change is right. The following principles create and nurture a positive environment for change and help everyone deliver high-quality care and services.

Principles for putting evidence-based guidance into practice

Eric Barends: So evidence-based practice is not something that we invented or the Center for Evidence-Based Management invented, it was introduced in the early 90s in medicine because even in medicine a lot of claims were being made regarding treatments or health or whatsoever and they felt that they should make a more evidence-based decision meaning they should have a look at the research findings to figure out whether the evidence supports the claim or whether it contradicts the claim.
