The Green and the Black

The Complete Story of the Shale Revolution, the Fight over Fracking, and the Future of Energy *St. Martin's Press*

Gary Sernovitz leads a double life. A typical New York liberal, he is also an oilman - a fact his left-leaning friends let

slide until the word "fracking" entered popular parlance. "How can you frack?" they suddenly demanded, aghast. But for Sernovitz, the real question is, "What happens if we don't?" Fracking has become a four-letter word to environmentalists. But most people don't know what it means. In his fast-paced, funny, and lively book, Sernovitz explains the reality of fracking: what it is, how it can be made safer, and how the oil business works. He also tells the bigger story. Fracking was just one part of a shale revolution that shocked our assumptions about fueling America's future. The revolution has transformed the world with consequences for the oil industry, investors, environmentalists, political leaders, and anyone who lives in areas shaped by the shales, uses fossil

fuels, or cares about the climate - in short, everyone. Thanks to American engineers' oilfield innovations, the United States is leading the world in reducing carbon emissions, has sparked a potential manufacturing renaissance, and may soon eliminate its dependence on foreign energy. Once again the largest oil and gas producer in the world, America has altered its balance of power with Russia and the Middle East. Yet the shale revolution has also caused local disruptions and pollution. It has prolonged the world's use of fossil fuels. Is there any way to reconcile the costs with the benefits of fracking? To do so, we must start by understanding fracking and the shale revolution in their totality. The Green and the Black bridges the gap in America's energy education. With an

insider's firsthand knowledge and unprecedented clarity, Sernovitz introduces readers to the shales - a history-upturning "Internet of oil" - tells the stories of the shale revolution's essential characters, and addresses all the central controversies. To capture the economic, political, and environmental prizes, we need to adopt a balanced, informed perspective. We need to take the green with the black. Where we go from there is up to us.

The Fight for Civil Rights in Northern Ireland & Black America

Pluto Press

'An excellent book.' Irish Voice (New York) Ties between political activists in

Black America and Ireland span several centuries, from the days of the slave trade to the close links between Frederick Douglass and Daniel O'Connell, and between Marcus Garvey and Eamon de Valera. This timely book traces those historic links and examines how the struggle for black civil rights in America in the 1960s helped shape the campaign against discrimination in Northern Ireland. The author includes interviews with key figures such as Angela Davis, Bernadette McAliskey and Eamonn McCann.

The Negro Motorist Green Book

1940 Edition *Colchis Books*

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only

of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Overground Railroad

The Green Book and the Roots of Black Travel in America *Abrams*

This historical exploration of the Green Book offers “a fascinating [and] sweeping story of black travel within Jim Crow America across four decades” (The New York Times Book Review). Published from 1936 to 1966, the Green Book was hailed as the “black travel guide to America.” At that time, it was very dangerous and difficult for African-Americans to travel because they couldn’t eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a

horrific problem. It took courage to be listed in the Green Book, and Overground Railroad celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. A New York Times Notable Book of 2020

Black, White, and Green

Farmers Markets, Race, and the Green Economy *University of Georgia Press*

Farmers markets are much more than places to buy produce. According to advocates for sustainable food systems, they are also places to “vote with your fork” for environmental protection, vibrant communities, and strong local economies. Farmers markets have become essential to the movement for food-system reform and are a shining example of a growing green economy where consumers can shop their way to

social change. *Black, White, and Green* brings new energy to this topic by exploring dimensions of race and class as they relate to farmers markets and the green economy. With a focus on two Bay Area markets—one in the primarily white neighborhood of North Berkeley, and the other in largely black West Oakland—Alison Hope Alkon investigates the possibilities for social and environmental change embodied by farmers markets and the green economy. Drawing on ethnographic and historical sources, Alkon describes the meanings that farmers market managers, vendors, and consumers attribute to the buying and selling of local organic food, and the ways that those meanings are raced and classed. She mobilizes this research to

understand how the green economy fosters visions of social change that are compatible with economic growth while marginalizing those that are not. *Black, White, and Green* is one of the first books to carefully theorize the green economy, to examine the racial dynamics of food politics, and to approach issues of food access from an environmental-justice perspective. In a practical sense, Alkon offers an empathetic critique of a newly popular strategy for social change, highlighting both its strengths and limitations.

Pink & Green Is the New Black

Pink & Green Book Three *Abrams*

Lucy Desberg is in eighth grade, and she's determined to make this year

perfect. Over the course of the year, though, her talents for makeup and problem-solving will be put to the test. On the outside, things couldn't be better: her family's spa is doing well, and she has a boyfriend, Yamir. But Yamir's in high school now, and Lucy's too embarrassed to admit that he hasn't called her in weeks. To take her mind off him, she throws herself into planning the eighth-grade masquerade, using her makeup skills to rally her classmates. But as she soon learns, ignoring a problem does not make it go away. It's destined to pop up at the worst possible time. Lucy's resourcefulness will be put to the test as she grows up and starts making decisions about the type of person—and girlfriend and friend and daughter and sister—that she wants to

be.

Black and Green

Afro-Colombians, Development, and Nature in the Pacific Lowlands *Duke University Press*

In *Black and Green*, Kiran Asher provides

a powerful framework for reconceptualizing the relationship between neoliberal development and social movements. Moving beyond the notion that development is a hegemonic, homogenizing force that victimizes local communities, Asher argues that development processes and social movements shape each other in uneven and paradoxical ways. She bases her argument on ethnographic analysis of the black social movements that emerged from and interacted with political and economic changes in Colombia's Pacific lowlands, or Chocó region, in the 1990s. The Pacific region had yet to be overrun by drug traffickers, guerrillas, and paramilitary forces in the early 1990s. It was better known as the largest area of black

culture in the country (90 percent of the region's population is Afro-Colombian) and as a supplier of natural resources, including timber, gold, platinum, and silver. Colombia's Law 70, passed in 1993, promised ethnic and cultural rights, collective land ownership, and socioeconomic development to Afro-Colombian communities. At the same time that various constituencies sought to interpret and implement Law 70, the state was moving ahead with large-scale development initiatives intended to modernize the economically backward coastal lowlands. Meanwhile national and international conservation organizations were attempting to protect the region's rich biodiversity. Asher explores this juxtaposition of black rights, economic development, and

conservation—and the tensions it catalyzed. She analyzes the meanings attached to “culture,” “nature,” and “development” by the Colombian state and Afro-Colombian social movements, including women’s groups. In so doing, she shows that the appropriation of development and conservation discourses by the social movements had a paradoxical effect. It legitimized the presence of state, development, and conservation agencies in the Pacific region even as it influenced those agencies’ visions and plans.

Eco-Imperialism Green Power, Black Death *Academic Foundation*

The Negro *Cosimo, Inc.*

This is the classic history of the African

peoples in Africa and the New World, a repudiation of the absurd belief, widely held in the post-Civil War period, that Africans had no civilization but the one foisted upon them by their slave-trading captors. Writing for a popular audience in 1915, DuBois, one of America's greatest writers, lays out in easy-to-read, nonacademic prose the striking and illustrious story of the complex history and varied cultures of Africa. He explores everything from the art and industry of the peoples of the continent to the dramatic impact the slave trade had both in Africa and on her descendants in the Western Hemisphere. Boldly proud and beautifully written, this essential work will delight readers of American and African history as well as students of great American

literature. American writer, civil rights activist, and scholar WILLIAM EDWARD BURGHARDT DU BOIS (1868-1963) was the first black man to receive a PhD from Harvard University. A co-founder of the NAACP, he wrote a number of important books, including *Black Folk, Then and Now* (1899) and *The Negro* (1915).

Black Swan Green

A Novel *Random House*

By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize Selected by Time as One of the Ten Best Books of the Year | A New York Times Notable Book | Named One of the Best Books of the Year by The Washington Post Book World, The Christian Science Monitor, Rocky Mountain News, and Kirkus Reviews | A Los Angeles Times Book Prize Finalist | Winner of the ALA Alex Award | Finalist for the Costa Novel Award From award-winning writer David Mitchell comes a

sinewy, meditative novel of boyhood on the cusp of adulthood and the old on the cusp of the new. *Black Swan Green* tracks a single year in what is, for thirteen-year-old Jason Taylor, the sleepest village in muddiest Worcestershire in a dying Cold War England, 1982. But the thirteen chapters, each a short story in its own right, create an exquisitely observed world that is anything but sleepy. A world of Kissingeresque realpolitik enacted in boys' games on a frozen lake; of "nightcreeping" through the summer backyards of strangers; of the tabloid-fueled thrills of the Falklands War and its human toll; of the cruel, luscious Dawn Madden and her power-hungry boyfriend, Ross Wilcox; of a certain Madame Eva van Outryve de

Crommelynck, an elderly bohemian emigré who is both more and less than she appears; of Jason's search to replace his dead grandfather's irreplaceable smashed watch before the crime is discovered; of first cigarettes, first kisses, first Duran Duran LPs, and first deaths; of Margaret Thatcher's recession; of Gypsies camping in the woods and the hysteria they inspire; and, even closer to home, of a slow-motion divorce in four seasons. Pointed, funny, profound, left-field, elegiac, and painted with the stuff of life, *Black Swan Green* is David Mitchell's subtlest and most effective achievement to date. Praise for *Black Swan Green* "[David Mitchell has created] one of the most endearing, smart, and funny young narrators ever to rise up from the pages

of a novel. . . . The always fresh and brilliant writing will carry readers back to their own childhoods. . . . This enchanting novel makes us remember exactly what it was like."—The Boston Globe "[David Mitchell is a] prodigiously daring and imaginative young writer. . . . As in the works of Thomas Pynchon and Herman Melville, one feels the roof of the narrative lifted off and oneself in thrall."—Time

Something Black in the Green Part of Your Eye *New Issues Poetry & Prose*

Poetry. "So focused, so distilled the articulation of these poems-the details of country matters so strangely noticed, the dreams so strongly nourished-that initially we are at a loss (though quite happy to be there) to know what to make of this new diction..Though spoken out of a solitude and into one, Cantwell's fresh-cut verses achieve a sort of community of perception, 'untethered from familiar darkness, ' as the poet says. Gideon Green in Black and White

HarperCollins

Truly Devious meets Turtles All the Way

Down in critically acclaimed author Katie Henry's YA contemporary comedic mystery, a hilarious send-up of the hardboiled detective genre that spotlights family, friendship, and love. Gideon's short-lived run as a locally-famous boy detective ended when middle school started, and everyone else—including his best friend, Lily—moved on while Gideon kept holding on to his trench coat, fedora, and his treasured film noir collection. Now, he's sixteen and officially retired. That is, until Lily shows up suddenly at Gideon's door, needing his help. He might be mad at her for cutting him off with no explanation, but Gideon can't turn down a case. As a cover, Gideon joins Lily on the school paper. Surprisingly, he finds himself warming up to the welcoming,

close-knit staff . . . especially Tess, the cute, witty editor-in-chief. But as the case gets bigger than Gideon or Lily could have anticipated, Gideon must balance his black-and-white quest for the truth with the full colors of real life—or risk a permanent fade to black.

Black Roses

Odes Celebrating Powerful Black Women *HarperCollins*

The poet and founder of the music collective Flowers for the Living pays tribute to all Black women by focusing on visionaries and leaders who are making history right now, including Ava DuVernay, Janelle Monae, Kamala Harris, Misty Copeland, Nikole Hannah-Jones, Robin Roberts, Roxane Gay, and Simone

Biles—with this compilation of celebratory odes featuring full-color illustrations by Melissa Koby. Black women are exceptional. To honor how Black women use their minds, talent, passion, and power to transform society, Harold Green began writing love letters in verse which he shared on his Instagram account. Balm for our troubled times, his tributes to visionaries and leaders quickly went viral and became a social media sensation. Now, in this remarkable collection, Green brings together many of these popular odes with never-before-seen works. A timely celebration of contemporary Black figures who are making history and shaping our culture today, *Black Roses* is divided into five sections—advocates, curators, innovators, luminaries,

trailblazers—reflecting the diversity of Black women’s achievements and the depth of their reach. These inspiring changemakers are leaving their mark on the world by creating new beauty in their respective art forms, heading movements, fighting for equality and to change the status quo, and championing new definitions of what’s possible in every meaningful way. Green lifts them up to create meaningful connections between these figures and our own lives and experiences. Black Roses spotlights and urges readers to learn more about Allyson Felix, Angelica Ross, Ava DuVernay, Bisa Butler, Bozoma Saint John, Charisma Sweat-Green, Dr. Eve Ewing, Dr. Janice Jackson, Dr. Johnnetta Cole, Eunique Jones-Gibson, Issa Rae, Janelle Monae, Jennifer Hudson, Jessica

Matthews, Kamala Harris, Keisha Bottoms, Kimberly Bryant, Kimberly Drew, Lisa Green, Lizzo, Mandilyn Graham, Mellody Hobson, Michelle Alexander, Misty Copeland, Naomi Beckwith, Nikole Hannah-Jones, Phylicia Rashad, Rapsody, Raquel Willis, Robin Roberts, Roxane Gay, Shellye Archambeau, Simone Biles, Stacey Abrams, Tabitha Brown, Tamika Mallory, Tarana Burke, Tasha Bell, Tomi Adeyemi, and Tracee Ellis Ross.

Red Black and Green

Black Nationalism in the United States *Cambridge University Press*

From the first slaves who rose up against their master in the early period of American history to the prominent

modern figures such as Malcolm X, Elijah Muhammed, Eldridge Cleaver, Red, Black, and Green traces the origins, the struggles and the accomplishments of black nationalism. Its broad discussion of the ideology of black nationalism and of the conditions that gave rise to this ideology provides the foundation for a thorough account of the black nationalist movement in the peak years of its momentum, roughly the decade 1963 to 1973. The author deals both with specific milestones, such as Marcus Garvey's Universal Negro Improvement Association in the early twentieth century, and with the far-reaching implications of the movement for the black community and for the United States as a whole. He looks at the many facets of black nationalism -

revolutionary nationalism, cultural nationalism, religious nationalism, and educational nationalism - analyses the relationship between this movement and liberation movements in general.

The Green and the Black *Crossroad Press*

A small group of industrial archaeologists head into the center of Newfoundland, investigating a rumor of a lost prospecting team of Irish miners in the late Nineteenth century. They find the remains of a mining operation, and a journal and papers detailing the extent of the miners' activities. But there is something else on the site, something older than the miners, as old as the rock itself. Soon the archaeologists are coming under assault, from a strange

infection that spreads like wildfire through mind and body, one that doctors seem powerless to define let alone control. The survivors only have one option. They must return to the mine, and face what waits for them, down in the deep dark places, where the green meets the black.

Eddie Green - The Rise of an Early 1900s Black American Entertainment Pioneer *BearManor Media*

A good man is hard to find, as the famous 1919 song by Eddie Green attests, but the pioneering Black filmmaker, movie star, Old Time Radio icon, and composer established himself as the living portrait of all that is admirable. His legacy now inspires a whole new generation. In an era when Black entertainers struggled to gain a foothold in show business, Eddie Green rivaled Oscar Micheaux for honors as a pioneering Black filmmaker. Audiences from The Apollo to Broadway propelled Eddie into two of America's most popular long-running radio series. From poverty to prominence, he accomplished more

than most people could dream. Discover Eddie's rags-to-riches story as told by his daughter. Her years of research have unearthed long-buried revelations and enlightening images that testify to one man's determination to rise above all obstacles and triumph against all odds through five decades from Vaudeville to television and then into the stuff of legends. The sands of time may have buried his name, but Eddie Green's laughter still echoes around the world. Thanks to this first-ever biography, a good man is no longer hard to find. Illustrated. Appendices include songs written by Eddie Green; the radio programs and movies in which he appeared; the movies he wrote, produced, and directed; rare script excerpts.

Tales of the Green, the Black Priest

Austin Macauley

Over 600 years have passed since the mysterious event known as the Green took over the continents, and reshaped the world. During this time, dense forests took over towns and cities, leaving the survivors cut off from each other, either because of the overgrown, torn up roads, or the aggressive, man-killing animals hiding in the dense, never-ending forests. Chaos ensued until the city of Marquette, located in what was once Michigan, became a safe haven with food, shelter, even power, and

protected by the Riders, the warriors of the road. Their goal; to bring civilization back from the Green by clearing and keeping the roads safe, while finding other people other groups of people to connect with, and protecting Marquette and her colonies. Jack, one of Marquette's best riders, is asked to move to the colony of Iron Wood to help establish a new Riders Lodge and become the head pathfinder there. Enlisting in the help of his fellow Riders, Doug, Kshea, and his beloved wife, Niki, Jack foresees a great future for the group... Meanwhile, a mysterious man dressed in black has appeared in the colony of Ontenogon. He speaks of a great land of milk and honey and possesses a powerful voice that can sway even the stubbornest of people.

What the Riders don't know is that this man, though seemingly harmless, spells great danger, heartache, and bloodshed for Marquette and her colonies.

Sacrifice

A Gold Star Widow's Fight for the Truth *Penguin*

The shocking and affecting memoir from a gold-star widow searching for the truth behind her Green Beret husband's death, this book bears witness to the true sacrifices made by military families. When Green Beret Bryan Black was killed in an ambush in Niger in 2017, his wife Michelle saw her worst nightmare become a reality. She was left alone with her grief and with two young sons to raise. But what followed Bryan's death

was an even more difficult journey for the young widow. After receiving very few details about the attack that took her husband's life, it was up to Michelle to find answers. It became her mission to learn the truth about that day in Niger--and *Sacrifice* is the result of that mission. In this heartbreaking and revelatory memoir, Michelle uses exclusive interviews with the survivors of her husband's unit, research into the military leadership and accountability, and her own unique vantage point as a gold-star widow to tell a previously unknown story. *Sacrifice* is both an honest, emotional look inside a military marriage and a searing investigation of the people and decisions at the heart of the US military.

Karabakh Diary

Green and Black : Neither War Nor Peace

Driving While Black: African American Travel and the Road to Civil Rights *Liveright Publishing*

How the automobile fundamentally changed African American life—the true history beyond the Best Picture-winning movie. The ultimate symbol of independence and possibility, the automobile has shaped this country from the moment the first Model T rolled off Henry Ford's assembly line. Yet cars have always held distinct importance for African Americans, allowing black families to evade the many dangers presented by an entrenched racist society and to enjoy, in some measure, the freedom of the open road. Gretchen Sorin recovers a forgotten history of black motorists, and recounts their creation of a parallel, unseen world of

travel guides, black only hotels, and informal communications networks that kept black drivers safe. At the heart of this story is Victor and Alma Green's famous Green Book, begun in 1936, which made possible that most basic American right, the family vacation, and encouraged a new method of resisting oppression. Enlivened by Sorin's personal history, *Driving While Black* opens an entirely new view onto the African American experience, and shows why travel was so central to the Civil Rights movement.

Battling the Plantation Mentality

Memphis and the Black Freedom Struggle *Univ of North Carolina Press*

African American freedom is often

defined in terms of emancipation and civil rights legislation, but it did not arrive with the stroke of a pen or the rap of a gavel. No single event makes this more plain, Laurie Green argues, than the 1968 Memphis sanitation workers' strike, which culminated in the assassination of Martin Luther King Jr. Exploring the notion of "freedom" in postwar Memphis, Green demonstrates that the civil rights movement was battling an ongoing "plantation mentality" based on race, gender, and power that permeated southern culture long before--and even after--the groundbreaking legislation of the mid-1960s. With its slogan "I AM a Man!" the Memphis strike provides a clarion example of how the movement fought for a black freedom that consisted of not

only constitutional rights but also social and human rights. As the sharecropping system crumbled and migrants streamed to the cities during and after World War II, the struggle for black freedom touched all aspects of daily life. Green traces the movement to new locations, from protests against police brutality and racist movie censorship policies to innovations in mass culture, such as black-oriented radio stations. Incorporating scores of oral histories, Green demonstrates that the interplay of politics, culture, and consciousness is critical to truly understanding freedom and the black struggle for it.

White Supremacy and the American Media *Routledge*

This volume examines the ways in which

the media, including film, television, social media, and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse. With chapters by today's preeminent critical race scholars, the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape. Systematically scrutinizing every media platform, this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology, and presents them with the means to

examine and analyze the persistence of these narratives within our racial discourse, thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives. *White Supremacy and the American Media* will be of interest not only to scholars working in critical race studies and popular culture in the United States, but to those working in the fields of Film and Television Studies, Sociology, Geography, Art History, Communication and Media Studies, Cultural Studies, American Studies, Popular Culture, and Media Studies.

Green & Black's Chocolate Recipes

**From the Cacao Pod to Muffins,
Mousses and Moles** *Kyle Cathie*

Limited

100 decadent recipes from the leading producers of luxury, organic chocolate worldwide.

Open Minds**Academic freedom and freedom of speech of Australia** *Black Inc.*

Recently the alarm has been raised – basic freedoms are under attack in our universities. A generation of ‘snowflake’ students are shutting out ideas that challenge their views. Ideologically motivated academics are promoting propaganda at the expense of rigorous research and balanced teaching. Universities are caving in and denying platforms to ‘problematic’ public speakers. Is this true, or is it panic and

exaggeration? Carolyn Evans and Adrienne Stone deftly investigate the arguments, analysing recent controversies and delving into the history of the university. They consider the academy’s core values and purpose, why it has historically given higher protection to certain freedoms, and how competing legal, ethical and practical claims can restrict free expression. This book asks the necessary questions and responds with thoughtful, reasoned answers. Are universities responsible for helping students to thrive in a free intellectual climate? Are public figures who work outside of academia owed an audience? Does a special duty of care exist for students and faculty targeted by hostile speech? And are high-profile cases diverting attention from more

complex, serious threats to freedom in universities – such as those posed by domestic and foreign governments, industry partners and donors?

Modernizing America's Electricity Infrastructure *MIT Press*

A comprehensive, coherent strategy for modernizing America's electricity infrastructure while ensuring affordable, reliable, secure, and environmentally sustainable electricity services. America's aging electricity infrastructure is deteriorating rapidly even as the need for highly reliable electric service—driven by the explosion of digital technology—continues to rise. Largely missing from national discussions, however, is a coherent, comprehensive national strategy for

modernizing this critical infrastructure. Energy expert Mason Willrich presents just such a strategy in this book, connecting the dots across electric utilities, independent suppliers, government bureaucracies, political jurisdictions, and academic disciplines. He explains the need for a coherent approach, offers a framework for analyzing policy options, and proposes a step-by-step strategy for modernizing electrical infrastructure, end-to-end, in a way that ensures the delivery of affordable, reliable, secure, and environmentally sustainable electricity services. Willrich argues that an effective electrical infrastructure modernization strategy must incorporate flexibility, adaptability, and the capacity to coordinate policies at local, state, and

federal levels. He reviews the history of America's electrification, from Edison's demonstration of the incandescent light bulb through the recent expansion of wind, solar, and energy efficiency as carbon-free energy resources. He describes the current ownership and operation of the electric industry and the complicated web of federal and state policies that govern it.

The Black and Green Atlantic

Cross-Currents of the African and Irish Diasporas *Palgrave Macmillan*

For centuries, African and Irish people have traversed the Atlantic, as slaves, servants, migrants, exiles, political organizers and cultural workers. Their experiences intersected; their cultures influenced one another. These essays explore the connections that have defined the 'Black and Green Atlantic' in culture, politics, race and labour.
