My Real Children Jo Walton

Jo Walton sure knows how to pull on my heart strings. Among Others charmed me and spoke to me on so many levels, even though I did not grow up a girl in Wales in the 1970's and 80's. Jo's new novel has the same feel as her previous, but tells a different story. This is the story of Patricia, born in the 1930's and who grew up during World War II.

Jo Walton : My Real Children | Tin House

Jo Walton’s My Real Children is a bit like a novel written from the point of view of Schrödinger’s cat, except that instead of a cat we have a smart, sympathetic Englishwoman named Patricia, and she’s not alive and dead, she’s alive twice—she lives two parallel lives, in two distinct worlds, both of which are apparently equally real. While the premise of My Real Children is science fictional, its tone is that of literary realism.
