Computer Integrated Manufacturing Realizing The

Computer-integrated manufacturing (CIM) refers to the use of computer-controlled machineries and automation systems in manufacturing products. CIM combines various technologies like computer-aided design (CAD) and computer-aided manufacturing (CAM) to provide an error-free manufacturing process that reduces manual labor and automates repetitive tasks.

What Is Computer-Integrated Manufacturing (CIM

...

When an organization manage their manufacturing or production using computers, it is called

Computer Integrated Manufacturing (CIM). In CIM, machines and automation systems control the whole manufacturing setup.

Computer Integrated Manufacturing (CIM) - Meaning ...

Computer-integrated manufacturing. Since about 1970 there has been a growing trend in manufacturing firms toward the use of computers to perform many of the functions related to design and production. The technology associated with this trend is called CAD/CAM, for computer-aided design and computer-aided manufacturing.
