This is true even when negotiating with people of the same gender. Many men and women assume that males are highly competitive, manipulative, win-lose negotiators. People often see men as wanting to attain solid deals from the other negotiator. A widely held stereotype of difference is that women are more accommodating than men.

The Impact of Gender in Negotiations between Women & Men ...

When it comes to salary negotiations, women, in general, are less likely to ask for one. But when race enters into the picture, all women are less likely to ask for a raise compared to men of pretty much every race and ethnicity. Fractl research shows that 51.8% of respondents have asked for a raise. But, when you break that down by race, the results are rather shocking.
