Water supply and sanitation in France - Wikipedia
To use the Human Right to Water and Sanitation in all communications on Water and/or Sanitation. To guarantee water (safe, clean and affordable) and sanitation services to all of the populations in EU Member States. To refrain from turning water services into commercial services by excluding water from internal market rules.

Water and sanitation are a human right! - Right to Water
When seeking to involve the private-sector in water and sanitation infrastructure projects, a host country’s legal framework should be considered. Regulation of the sector (including regulation of tariffs, performance and standards) is important for all service delivery, whether provided by the private or public sector.

Water Sector Regulation | Public private partnership
Safe sanitation systems are fundamental to protect public health. WHO is leading efforts to monitor the global the burden of sanitation-related disease and access to safely managed sanitation and wastewater treatment and factors that enable or hinder progress under the Sustainable Development agenda.

WHO | Sanitation and wastewater
Sanitation refers to public health conditions related to clean drinking water and adequate treatment and disposal of human excreta and sewage. Preventing human contact with feces is part of sanitation, as is hand washing with soap. Sanitation systems aim to protect human health by providing a clean environment that will stop the transmission of disease, especially through the fecal-oral route.

Sanitation - Wikipedia
Welcome to the County of Ventura and Water and Sanitation website. Water and Sanitation - Module 3: Water and Sanitation ...
Public water supply and sanitation in Germany is universal and of good quality. Some salient features of the sector compared to other developed countries are its very low per capita water use, the high share of advanced wastewater treatment and very low distribution losses. Responsibility for water supply and sanitation provision lies with municipalities, which are regulated by the states. Professional associations and utility associations play an important role in the sector. As in other EU cou
