7 Ways to Scaffold Instruction for English Language Learners

Adolescent students learning academic subject matter in a new language face a number of challenges, both local and global in nature, as they negotiate the linguistic, academic and social world of schooling. Making a case for a pedagogy of rigour and hope, the author presents a model of scaffolding that emphasises the interactive social nature of learning and the contingent, collaborative nature of support and development.

Scaffolding Instruction for English Language Learners: A ...

Scaffolding is a method in which the teacher supports a student to work just beyond the level he could achieve on his own. Psychologist Lev Vygotsky called this area the "zone of proximal development." As the student becomes more competent, the support is gradually removed until the student is able to perform the task without assistance.
