[Book] Creative Solutions Accounting Software Manual

Creative Accounting refers to the use of accounting knowledge to influence the reported figures, while remaining within the jurisdiction of accounting rules and laws, so that instead of showing the actual performance or position of the company, they reflect what the management wants to tell the stakeholders.

Use or Abuse of Creative Accounting Techniques

Abstract The term 'creative accounting' can be defined in a number of ways. Initially we will offer this definition: 'a process whereby accountants use their knowledge of accounting rules to manipulate the figures reported in the accounts of a business'.

THE ETHICS OF CREATIVE ACCOUNTING

Creative accounting, which many be known by other terms such as earnings management, income smoothing or aggressive accounting, refers to accounting practices that portray a business's financial situation as either better or worse than the actual circumstances. While legal in a technical sense -- the practices do not violate generally accepted accounting principles (GAAP) -- creative accounting proves ethically questionable.
