Diseases Of The Skin Book ...

A late French writer, Dr. Prost, in an ingenious work entitled " Medecine Eclairée par Observation et l'Overture des Corps," has, taken pains to prove that madness is the effect of a disease in the intestines, and particularly of their peritoneal coat. The marks of inflammation which appear in the bowels in persons who have died of madness, have no doubt favoured this opinion; but these morbid appearances, as well as all those which are often met with in the liver, spleen, and occasionally ...
