React-bootstrap has rebuilt the jQuery-based modal with React components that provide the same functionality as the jQuery counter-parts. In this guide I will show you how to install react-bootstrap, show and hide a modal, work with different modal events, and customize the modal to your needs using Bootstrap Modals in React. Let's get started.

Working with Bootstrap's Modals in React | Pluralsight

When we begin the diatonic scale on a solfege syllable other than do, we create a modal scale. There are two ways of spelling the modal scales using solfege. One method takes the lowest note as do and adjusts the other degrees of the scale as necessary (for example, the Lydian scale would be spelled do, re, mi, fi, sol, la, ti, do).
