One of the most intriguing political books I've read in the last decade is Clint Bolick's "Leviathan: The Growth of Local Government and the Erosion of Liberty". While us conservatives tend to obsess over what the feds are doing, much of the real damage both to our liberties and to our pocketbooks is being committed by state and local governments.

Abstract. This article revisits the influential “Leviathan” hypothesis, which posits that tax competition limits the growth of government spending in decentralized countries. I use panel data to examine the effect of fiscal decentralization over time within countries, attempting to distinguish between decentralization that is funded by intergovernmental transfers and local taxation.
