Politics in America's theme of constant

competition for power and resources - "who gets what" - has never been more relevant because of the intense political conflict of the most expensive presidential campaign in American history.

Politics in America, Alternate Edition - Pearson

In 1936, Harold Lasswell defined politics as a struggle over the allocation of values and resources in a society. More precisely, he defined politics as a contest over "who gets what, when, and how" — a competition for resources. In *Politics in America*, Tom Dye employs this classic, and still resonant, definition as the lens through which he examines the foundations, institutions, behaviors, and policies of the American political system.
