New Finnish Grammar - Diego Marani - Complete Review

God's Dog is human where New Finnish Grammar is metaphysical and in it, Marani's sights have been set on something much more personal to him: Italian sacerdotalism and immanentism, a bureaucracy of priests and icons. The Emilia-Romagna region, from which he hails, has a strong history of anti-clericalism, and Marani, at his funniest in the novel, writes a passage in which a foppish Vatican bureaucrat bores Salazar with a speech about ranks of angels, which he believes are also bureaucrats.
