On the subject of geometry, Geometry Turned On does not shy away from addressing whether the striking visuals generated by dynamic constructions might cause students to question the need for formal proof.

Geometry Turned On: Dynamic Software in Learning, Teaching ...

Interactive geometry software (IGS) or dynamic geometry environments (DGEs) are computer programs which allow one to create and then manipulate geometric constructions, primarily in plane geometry. In most IGS, one starts construction by putting a few points and using them to define new objects such as lines, circles or other points. After some construction is done, one can move the points one started with and see how the construction changes.
