Language Maintenance And Shift In

Language maintenance denotes the continuing use of a language in the face of competition from a regionally and socially more powerful language.

Language shift is the opposite of this: it denotes the replacement of one language by another as the primary means of communication within a community. The term language death is used when that community is the last one in the world to use that language. The extinction of Cornish in England is an example of language death as well as shift (to English).

The discussion also notes the basic tenet emphasized by Fishman (1991) that language maintenance must involve intergenerational transmission of the language. If intergenerational transmission of a language ceases, it can be said that the speakers have shifted to

another language.

Conscious efforts centered around various attempts to reverse the shift and retain or regain the structural and functional integrity of a threatened language fall within the social dynamic that is called language maintenance. Shift and maintenance are two poles in a complex dialectic since any social or

intellectual movement voicing an advocacy for maintenance would be meaningless without the existence of historical contingencies that threaten to push languages in the direction of shift.

**Language Maintenance and Shift -
researchgate.net**

Language shift, also known as language transfer or language replacement or language assimilation, is the process whereby a speech community shifts to a different language, usually over an extended period of time. Often,

languages that are perceived to be higher status stabilise or spread at the expense of other languages that are perceived by their own speakers to be lower-status. An example is the shift from Gaulish to Latin during the time of the Roman Empire.
