With these upgrades, suspension is a hot topic. While QA1's full-vehicle suspension systems are popular for the G-body, many like to build their vehicle piece-by-piece, using the parts list of the suspension system as a sort of road map for upgrades. This helps on a budgetary standpoint (buying parts individually costs the same as buying the full kit) while also minimizing the time the vehicle is down for upgrades.

Power output notwithstanding, putting a little performance into these cars does require a few upgrades. For instance, the rear suspension used on A and G-body cars use upper control arms that are tasked to perform two separate, but equally important, operations. Each of these tasks involve two completely different forces acting on them.
