urbanization. Social problems such as poverty, increasing social dislocation, immigration, illiteracy, disease, exploited labor, and slum housing adversely impacted the lives of increasing numbers of individuals and families. Many of these families often found themselves living in crowded tenements with more than one family living in small and rodent-infested quarters. Many individuals, including children, also found themselves working in the highly dangerous - ...

Chapter 1

family psychology focuses reductionistically on the relationship of the individual within the family, while family therapy focuses holistically on the family as a whole unit or system. Family psychology stresses objective evaluation and primary and secondary prevention approaches, while family therapy stresses the subjective understanding of the family and sees therapy as one type of tertiary prevention.
