THE MORAL LANDSCAPE

The Moral Landscape: How Science Can Determine Human Values is a 2010 book

by Sam Harris, in which the author promotes a science of morality and argues that many thinkers have long confused the relationship between morality, facts, and science. He aims to carve a third path between secularists who say morality is subjective, and religionists who say that morality is given by God and scripture. Harris contends that the only moral framework worth talking about is one where "morally good" things pe

The Moral Landscape - Wikipedia

In *The Moral Landscape*, Harris presents a strong argument for objective morality. He opposes secular scientists and philosophers who argue that there are objective facts in science but when it comes to morality, objectivity is gone.

Harris sees this moral relativism as false.
