Along with Wallerstein, geographer and social theorist David Harvey (1935-) is the pre-eminent Marxist theorist of globalization. In his bestselling *The Condition of Postmodernity*, Harvey became one of the first theorists to link globalization with fundamental changes in our experiences of time and space. Harvey coined the term “time-space compression” to refer to the way the acceleration of economic activities leads

to the destruction of spatial barriers and distances.

Globalization and the Time-space Reorganization: Capital ...

Space exploration does not stand apart from the globalization process. It is part and parcel of the thing it has magnified. The globalization process, therefore, requires us to re-think the exploration of space. Societies leapfrogging to advanced industrial status like China and India are getting in on outer space production.

Globalization of Space - The Astrosociological Approach

The structural opposition between globalization 'winners' and 'losers' is expected to constitute potentials for political mobilization within national

political contexts, the mobilization of which is expected to give rise to two intimately related dynamics: the transformation of the basic structure of the national political space and the strategic repositioning of the political parties within the transforming space.

Globalization and the transformation of the national ...

According to Steger (2013), "Globalization refers to the expansion and intensification of social relations and consciousness across world-time and world-space" (p. 15). It establishes connections between people and from this process it entails the movement of goods, technology, people, and money across the globe.

Doreen Massey maintained this idea about time-space compression in her discussion of globalization and its effect on our society. Similar to Virilio, she stated that because our world is "speeding up" and "spreading out", time-space compression is more prevalent than ever as internationalization takes place. Cultures and communities are

merged during time-space compression due to rapid growth and change, as "layers upon layers" of histories fuse together to shift our ideas of what the ...

Time-space compression - Wikipedia

Globalization is the extension of social relations across world-space, defining that world-space in terms of the historically variable ways that it has been practiced and socially understood through changing world-time.
