Fundamental Of Research Methodology And

Fundamental Research. Fundamental research, also known as basic research or pure research does not usually generate findings that have immediate applications in a practical level. Fundamental research is driven by curiosity and the desire to expand knowledge in specific research area. This type of research makes a specific contribution to the academic body of knowledge in the research area.

Fundamental Research - Research-Methodology

Therefore, the Basic Concept of Research Methodology is defined as a highly intellectual human activity used in the investigation of social phenomena, nature, and matter that deals especially with the manner in which data is collected, analyzed, and interpreted for a scientific research project.

Basic Concept of Research Methodology and Method

Allan and Randy (2005) insist that when conducting a research methodology should meet the following two criteria: Firstly, the methodology should be the most appropriate to achieve objectives of the research. Secondly, it should be made possible to replicate the methodology used in other researches of the same nature

methodology - Research -Methodology

Basic research is a type of research approach that is aimed at gaining a better understanding of a subject, phenomenon or basic law of nature. This type of research is primarily focused on the advancement of knowledge rather than solving a specific problem. Basic research is also referred to as pure research or fundamental research.
