Lessig: The Architecture of Privacy Draft: April 3, 1998 5 inefficiencies themselves constituted a kind of a protection; they made it hard to search. But as well as this architecture, the law was a protection. The law protected individuals against search; it limited the reasons the police could use for searching; it was a second line of defense

The Architecture of Privacy - Harvard University

Privacy in architecture refers to design choices that give people a sense of security and privacy in a physical space. Particularly when designing residential dwellings, it's important to bear in mind that despite the importance of the materials used, level of eco-friendliness, availability of different amenities and luxuries and so on, a home at the end of the day is a place where one should feel safe in a private space.

100 Examples of Privacy in Architecture - TrendHunter.com

Broadly speaking, experts sort conceptions of privacy into two categories—informational privacy, which concerns “the collection, use, and disclosure of personal information,” and decisional privacy, which relates to “the freedom to make decisions about one’s body and family.” 4 Given that this book focuses on technologies that work with data, we will concentrate our discussion on informational privacy. However, this should not be read to suggest that the adoption of these ...
